

ELECTRIC CHAINSAW

ECS1100P

RANGE OF CORDLESS POWER TOOLS

01

LIGHTNESS AND MANOEUVRABILITY:

It weighs less than 2kg and, because of its small size, allows you to work with one hand. That way, you can keep your other hand free to grab the branches you want to cut or to move them away and better reach wherever you need. It is so comfortable that it can even be used overhead. It includes safety systems such as the hand protector and a triple start-up button so that you work safer.

02

EFFICIENCY:

Whether alone or combined with another tool, you'll get less tired and cut more in less time. You'll be able to spend your time doing other work that is just as valuable for your crops. Moreover, it hardly needs maintenance in day-to-day activities.

03

FUNCTIONALITY:

The chainsaw will be your perfect ally – whether for using it alone to prune and clean your trees and woody crops, or for complementing your electric pruning shears. Its small size, cutting capacity and battery life will convince you that it's a tool that you'll never want to be without.

CASE CONTENTS

ECS1100P

- Chainsaw ECS1100P
- 3 lithium batteries
- 3-way charger
- Maintenance tools (socket+screwdriver)
- Operating Instructions
- Hard-sided case for transport

MAINTENANCE

Remember to keep the chain lubricated. Cleaning the bar and the chain is essential for the machine to last for you. Check the operation of the triple safety system.

Check the oil tank periodically before it becomes empty. Clean the motor vents well to prevent overheating. Make sure none of the buttons is blocked.

Always keep the batteries charged, even when you're not using them.

BAR LENGTH

TRIPLE SAFETY BUTTON

MAXIMUM CUTTING SPEED

ECS1100P

	Chainsaw weight (with battery)	1.800 gr
	Chainsaw weight (without battery)	1.300 gr
	Battery weight	490 gr
	Battery type	Lithium
	Rated voltage	24 V
	Amperage or capacity	4.2 Ah
	Approx. battery life	Depends on how it is used
	Charge time per battery	2-2,5 h
	Warranty	Chainsaw: 1 year Battery: 1 year
	Nominal power	470 W
	Motor	Brushless
	Working temperature	-10°C to +60°C
	Maximum voltage	25,2 V

	Maximum cutting capacity	Ø 110 mm
	Chain speed	Ø 11 m/s
	Guide	4,5" (110mm) Slot 0,043" 1,1 mm
	Chain	38 1/4 links" (6,35)
	Chain sprocket	7
	Chain lubrication	Self-adjustable oil pump
	Charging voltage	CA 110V-220V
	Oil tank capacity	100ml
	Monitor	5 digits for item reference
		Percentage of battery remaining
		Operating time
	Drive system	3 buttons must be pressed to start up the chain
