# Weber Smart Assist

**NOVITA' 2023!**

**DISPONIBILE PER CR 6, CR 7, CR 8, CR 9**

**weber** m<sub>t</sub>

## WSA - Weber Smart Assist

**3 FUNZIONALITA' IN 1 DISPLAY LCD!**

**Controllo del livello della compattazione**  
Il famoso e affidabile COMPATROL.

**Protezione e diagnostica motore**

(simile al precedente MDM)

I simboli mostrano le anomalie, ad esempio il filtro aria sporco.

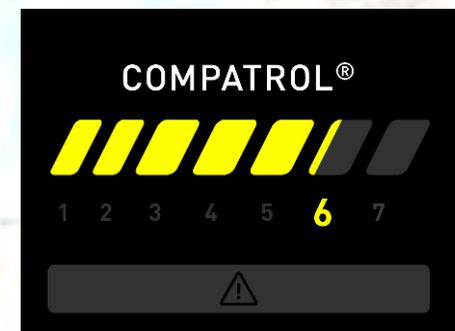

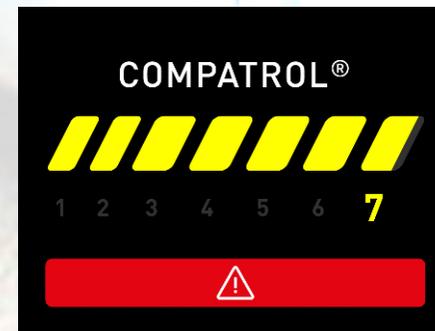

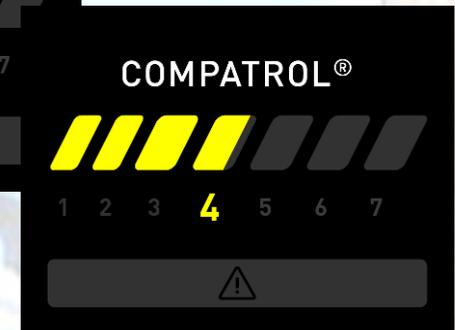

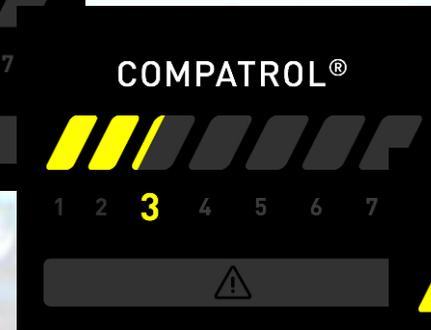

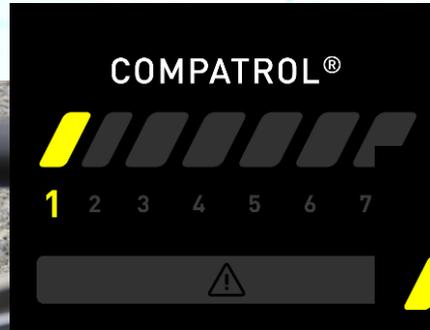

**NOVITA'! Supporto tecnico**

Con grafiche intuitive, il display mostra passo dopo passo come individuare i problemi, risolverli e ottimizzare i tempi della manutenzione.

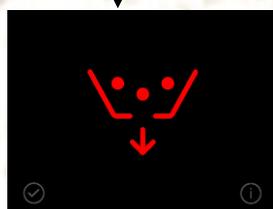

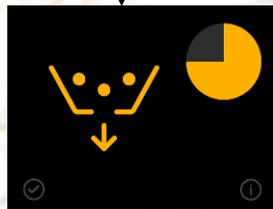

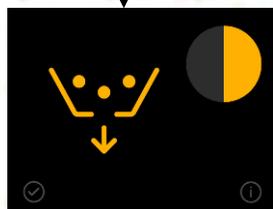

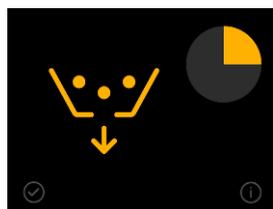

## Nuovo display COMPATROL:

Come il precedente, ma con delle barre al posto dei pallini, che si riempiono gradualmente fino a fermarsi, una volta raggiunto il massimo grado di compattazione.

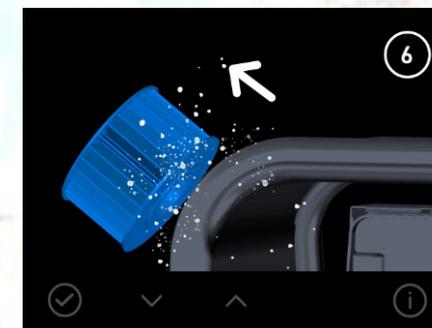

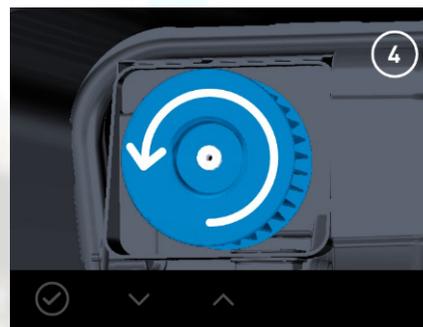

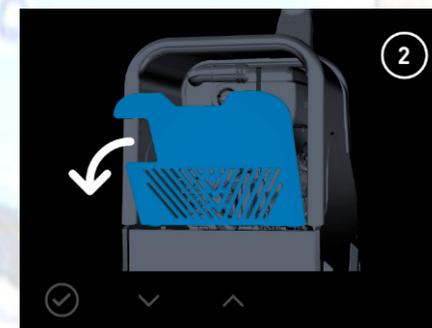

## MONITORAGGIO E SALVAGUARDIA DEL MOTORE...

Esempio:  
filtro dell'aria.  
Il display mostra  
l'intasamento  
progressivo.

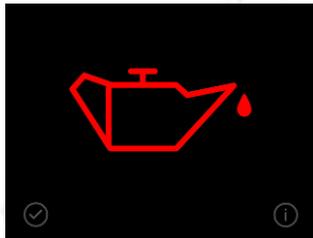

## ...CON SUPPORTO TECNICO!

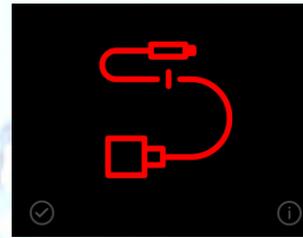

Filtro intasato: spegnimento  
automatico dopo 10 minuti

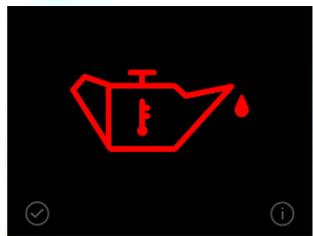

## Esempi di altri errori sul display

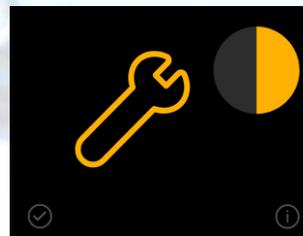

Perdita olio

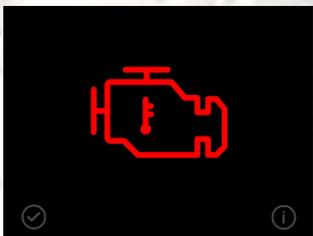

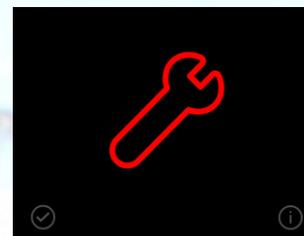

Problema a un  
sensore  
(Filtro o COMPATROL)

Olio troppo caldo

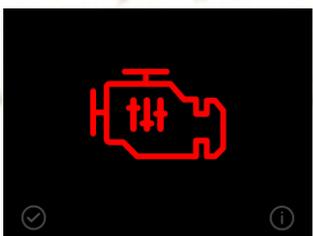

Manutenzione  
programmata

Motore surriscaldato
